Anne Romer
Art Schenkman

PHP

Wayne Foster

UFC

Jean Warner

UHC

Tunuguntla Ramana

Welcome (Dennis Koch)

Thank you all for attending the HIPAA Technical Consortium.

ENCOUNTERS NCPDP

Brent sent something out on making certain fields situational. R580 edit has been marked to soft so that it is not a hard edit anymore.

MMA CHANGES

The 834 HD segment will add a PDG (PRESCRIPTION DRUG). This will pass the MMA Part D information for anyone who participates in Part D. We will be collecting the data between June and October. Dennis will check on how it will be sent to BHS.

NPI

We are planning on converting NPI into an ALT ID table ID and then passing it back as an NPI. There are issues that NPI doesn't have service location codes. We are exploring using 9 digit zip codes with the addresses. Next week we will have someone here register for an NPI and see what happens. We will submit the procedures to the providers what the procedures will be.

MISCELLANEOUS 834

Maintenance reason codes will be put in at the end of June.

Next Meeting (Dennis Koch)

JULY 13, 2005, 9:00 a.m.-10:00 a.m.
